

POLICE BUREAU MAY BE HEADLESS ON WEDNESDAY

No, Bingham Isn't Going to Resign; He'll Be Conducting Trials.

For the first time in the history of the Police Department that branch of the city government will be without an executive head all day to-morrow. According to orders already issued, the sixty-one men who were captured in the famous automobile raids of the Commissioner one week ago will be up for trial.

Gen. Bingham has announced that he will be the trial judge, and that all of the witnesses will be on hand to testify. Inasmuch as the witnesses are all his own deputies as well as his and their secretaries, necessarily the department both here and in Brooklyn will be without an official head while the trials last. Of course, should anything but a break loose there would be a speedy adjournment of the trials and the executive officers would return to their places.

Among the sixty-one men who were caught in the raid probably one-third will be dismissed from the department. Those who will be found guilty of trivial offenses will know their fate on the conclusion of the testimony. The serious cases, however, will be acted upon by the Commissioner only after he has taken legal advice.

"I do not want to put a man out and then have to take him back again," said Gen. Bingham. "I want to be sure of my ground. If those fellows would only do their duty what a whole pile of trouble it would save the department."

Some of the charges made against the men are of such a nature as to place their positions in grave danger. One Lieutenant who was supposed to be on patrol was found undressed and asleep in bed in his home. Another man was found sixteen times within one hour in the same liquor saloon. Others who were supposed to be asleep in dormitories were also found asleep at their homes.

EMPEROR NOT SO WELL; STICKS TO HIS WORK.

VIENNA, Oct. 22.—Emperor Francis Joseph did not pass as good a night as usual, owing to frequent attacks of coughing. He rose before 4 o'clock, and when he was examined by his doctors they found that the catarrhal symptoms were unchanged, that there had not been sufficient expectation, and that his strength was less satisfactory than yesterday, but he was not suffering from fever.

In brief, his malady is pursuing an irregular, fluctuating course. After the doctors' examination the Emperor attended to his regular work as usual.

TROLLEY MEN ON STRIKE TIE UP YONKERS CARS

Demands More Pay and the Reinstatement of Road Superintendent.

Three hundred men employed by the Union Railway Company, which operates the trolley road from Yonkers to Kingsbridge, passing through Mount Vernon and Tuckahoe, went on strike to-day. They had demanded an increase in pay of from 20 to 30 cents an hour, and when this was refused they decided to stop off their cars.

Hundreds of persons who have been patronizing the trolley company of late because of the increased price in travel, charged by the Hudson River and Putnam division of the New York Central were compelled to stay at home or to take trains to get to the city.

The employees of the trolley company had planned to leave their cars in Main street, in Yonkers. This every man of them did.

Superintendent Boniface, of the Union Railway Company, had no authority to raise the pay of the men, and sent for President Maher, who lives in the Bronx. Mr. Maher hurried to Yonkers and tried to persuade the men to get on their cars. They refused.

Under a Yonkers town ordinance no man can operate a trolley car who has not had ten days' experience. No men could be found who had had this experience except the strikers, and for a time the trolley system was completely paralyzed.

According to one of the strikers, the men have another grievance in the discharge of John Miller, an accountant for the company, who has been acting as superintendent in Yonkers. Edward Murphy, of Mount Vernon, has been sick for three weeks and in his absence President Maher sent a man named Boniface to perform Murphy's duties. Boniface, according to the statement made by the strikers, became unpopular with the men and they appealed to Mayor Cooper to use his influence to have Boniface recalled.

This, the strikers said, resulted in the appointment of Miller as acting superintendent. Everything went along all right until yesterday, when, it is alleged, President Maher came here with an inspector and dismissed Miller, the only explanation given being that a charge of conspiracy had been filed against him. This action of the president, the strikers asserted, really precipitated the strike.

The strikers held a meeting this morning in Hibernian hall on Padeside avenue. It is reported that a representative of President Maher informed them that if they would go back to work at once the President would see that their demands were satisfied, but that this proposal was rejected.

The men on the road struck about five years ago when they demanded the reinstatement of John Daly as superintendent. Daly was a Yonkers boy who had risen from the ranks. He was reinstated and remained with the company for two years.
